Statement of compliance with corporate governance rules in 2016

Attachment to Director's Report on the operations of the PGNiG SA and the PGNiG Group in 2016

Pursuant to Par. 91.5.4 of the Regulation of the Minister of Finance on current and periodic information to be published by issuers of securities and the conditions for recognition as equivalent of information whose disclosure is required under the laws of a non-member state (the 'Regulation'), dated February 19th 2009, the Management Board of PGNiG (the 'Issuer' or the 'Company') hereby presents its statement of compliance with corporate governance rules.

The Issuer's objective is to ensure maximum transparency of its activities, appropriate quality of its investor communications and protection of shareholder rights.

1. Corporate governance code applicable to the Issuer and where the text of such code is publicly available

In 2016, PGNiG complied with the set of corporate governance rules laid down in the 'Best Practice for WSE Listed Companies 2016' (the 'Code of Best Practice'), adopted by the WSE Supervisory Board in its Resolution No. 26/1413/2015 of October 13th 2015. The amended text of the code is available on the Warsaw Stock Exchange's corporate governance website at https://www.gpw.pl/dobre_praktyki_spolek_regulacje and in the 'Corporate Governance' section of the Issuer's website at www.pgnig.pl.

The Code of Best Practice was developed by experts representing various groups of capital market participants, who are members of the WSE Corporate Governance Consultative Committee. All changes in the Code of Best Practice were introduced in a way ensuring continuity of coverage of the matters addressed in the previous versions of the Code. To ensure clarity of the document and to emphasise the most important matters, a new thematic division of the Code was introduced. Further, a new scheme of the document, compliant with the European Commission's recommendation, was adopted.

2. Corporate governance standards referred to in Section 1 which were not applied by the Issuer, with a statement of reasons for the non-compliance

In 2016, the Issuer did not comply with four of the rules and two recommendations of the Code of Best Practice:

1. Disclosure Policy and Investor Communications – I.Z.1.15;
2. Management and Supervisory Board – II.Z.3;
3. Management and Supervisory Board – II.Z.2.7;
4. Management and Supervisory Board – II.Z.2.8;
5. General Meeting, Shareholder Relations – IV.R.2;
6. Remuneration – VI.R.4.

Reasons for the non-compliance with these rules and recommendations are presented below.

2.1. Disclosure Policy, Investor Communications – I.Z.1.15

'A company should operate a corporate website and publish on it, in a legible form and in a separate section, in addition to information required under the legislation, information about the company's diversity policy applicable to the company's governing bodies and key managers; the description should cover the following elements of the diversity policy: gender, education, age, professional experience, and specify the goals of the diversity policy and its implementation in the reporting period; where the company has not drafted and implemented a diversity policy, it should publish the explanation of its decision on its website.'

Decisions to select members of the Company's governing bodies are made by the owner, taking into consideration the Ministry of Energy's 'Standards of the owner's supervision at state-owned companies in which rights attached to shares are exercised by the Minister of Energy' and 'Rules and procedure for selecting candidates for members of the supervisory bodies of state-owned companies in which rights attached to the State Treasury's shares are exercised by the Minister of the Energy' - Regulation of the Minister of Energy of August 4th 2016.

The Company believes there is no need to define a diversity policy for its key managers.

2.2. Management and Supervisory Board – II.Z.3

'At least two members of the supervisory board should meet the criteria of being independent referred to in principle II.Z.4.'

In the reporting period, there was only one independent member on the Issuer's Supervisory Board – Mr Mateusz Boznański, appointed on December 29th 2015.

Pursuant to Art. 36.1 of the Issuer's Articles of Association, one of the members of the Supervisory Board appointed by the General Meeting should meet all of the following requirements:

1. He or she must be appointed in accordance with the special procedure set forth in the Articles of Association;
2. He or she may not be a related party or a subsidiary of the Issuer;
3. He or she may not be a related party of the Issuer's parent or of another subsidiary of such parent; and
4. He or she may not have any connections with the Issuer or with any of the entities referred to in items 2 and 3 which could materially affect his or her ability to make impartial decisions as a member of the Supervisory Board.

Given the fact that, in accordance with Art. 12 of the Act on Commercialisation and Privatisation of August 30th 1996 (consolidated text in Dz.U. of 2002, No. 171, item 1397, as amended), some of the Company's Supervisory Board members are elected by

employees, the Issuer cannot ensure that there are more independent members on its Supervisory Board. Increasing the number of independent members on the Company's Supervisory Board relative to the number currently set out in the Company's Articles of Association would lead to a situation where the State Treasury (the Issuer's majority shareholder) would be unable to appoint the majority of the Supervisory Board members. This in turn would violate the rule stipulating that a shareholder's influence on a company's business should be proportionate to the share capital held by such shareholder.

2.3. Management and Supervisory Board – II.Z.7

'Annex I to the Commission Recommendation referred to in principle II.Z.4 applies to the tasks and the operation of the committees of the Supervisory Board. Where the functions of the audit committee are performed by the supervisory board, the foregoing should apply accordingly.'

An Audit Committee operates within the Issuer's Supervisory Board as a standing committee, advising the Supervisory Board on matters within the Committee's remit.

Pursuant to the Best Practice for WSE Listed Companies, with respect to the tasks and the operation of its Supervisory Board committees, the Issuer should apply the rules laid down in Annex I to Commission Recommendation of February 15th 2005 on the role of non-executive or supervisory directors of listed companies and on the committees of the (supervisory) board. In the case of the Audit Committee, the primary purpose of the rules is to ensure that the Audit Committee performs its role correctly.

The Issuer has complied with all the requirements which guarantee the Audit Committee's involvement in the supervision of the Issuer's business. However, the Issuer did not comply with all the detailed requirements for the operation of the Committee. The requirements which the Issuer did not comply with include:

1. the rule laid down in Section 4.3.2 of Annex I, pursuant to which the management should inform the audit committee of the methods used to account for significant and unusual transactions where the accounting treatment may be open to different approaches;
2. the rule laid down in Section 4.3.8 of Annex I, pursuant to which the audit committee should review the process whereby the company complies with the existing regulations regarding the possibility for employees to report alleged significant irregularities in the company, by way of complaints or through anonymous submissions, normally to an independent director, and should ensure that arrangements are in place for the proportionate and independent investigation of such matters and for appropriate follow-up action.

Given the way the Audit Committee currently operates, the Issuer does not consider it necessary to introduce very detailed rules to regulate its operation.

The Issuer will take appropriate steps in the future, if justified by the actual manner of operation of the Audit Committee.

2.4. Management and Supervisory Board – II.Z.8

'The chair of the audit committee should meet the independence criteria referred to in principle II.Z.4.'

In accordance with the Rules of Procedure for the Audit Committee of the PGNiG Supervisory Board, the Audit Committee is composed of at least three Supervisory Board members, of whom at least one is independent from the Company and entities materially related to the Company. The independent member is appointed by the General Meeting under Art. 36.1 of the Articles of Association and is qualified in accounting and finance. Pursuant to Section 3.2 of the Rules of Procedure for the Audit Committee, the Audit Committee elects the Chairperson and Deputy Chairperson from among all of its members. Election of the Chairperson is a discretionary decision of the Audit Committee. The Chairperson may, but does not have to, be a person meeting the independence criteria referred to in principle II.Z.4. Furthermore, the Rules of Procedure do not give the Chairperson of the Audit Committee any additional rights, other than the right to manage the work of the Committee and convene its meetings. In the absence of the Chairperson, these functions are performed by the Deputy.

Currently, no amendments in this respect are planned to be made to the Rules of Procedure for the Audit Committee. In the Company's opinion, the regulations currently in force are sufficient to ensure proper operation of that Committee.

2.5. General Meeting, Shareholder Relations – IV.R.2

'If justified by the structure of shareholders or expectations of shareholders notified to the company, and if the company is in a position to provide the technical infrastructure necessary for a general meeting to proceed efficiently using electronic communication means, the company should enable its shareholders to participate in a general meeting using such means, in particular through:

- 1st real-life broadcast of general meetings,
- 2nd real-time bilateral communication where shareholders may take the floor during a general meeting from a location other than the general meeting,
- 3rd exercise of the right to vote during a general meeting either in person or through a proxy.'

The Company has decided not to comply with Section 2) of the recommendation, as its Articles of Association currently do not provide for shareholders' participation in a General Meeting using electronic communication means. In accordance with the

Commercial Companies Code, bringing that recommendation into effect would require a relevant amendment to the Company's Articles of Association.

The Company does not rule out making such amendments in the future. Only after they are made will it be able to comply with the recommendation.

2.6. Remuneration – VI.R.4

'The remuneration levels of members of the management board and the supervisory board and key managers should be sufficient to attract, retain and motivate persons with skills necessary for proper management and supervision of the company. Remuneration should be adequate to the scope of tasks delegated to individuals, taking into account additional functions, for instance on supervisory board committees.'

The Company follows recommendation IV.R.4 on the remuneration levels of the Management Board members and key managers. The recommendation cannot be implemented with respect to members of the Supervisory Board, as their remuneration is regulated by the generally applicable laws, namely the Act on Remunerating Persons Who Manage Certain Legal Entities, dated March 3rd 2000.

3. Basic features of internal control and risk management systems used by the Issuer in the process of preparation of financial statements and consolidated financial statements

The Issuer's internal control system consists of:

1. Group-wide uniform accounting policies on measurement, recognition and disclosure in accordance with the International Financial Reporting Standards, as well as unified templates for separate and consolidated financial statements;
2. Internal control mechanisms, including separation of duties, multi-stage data verification, accuracy reviews of data received, independent checks, etc;
3. Internal operating procedures implemented under Orders of the President of the Management Board;
4. Definition of accounting, financial reporting and tax settlement responsibilities at the Company, in the task book and in relevant rules approved by the Management Board and the Supervisory Board;
5. Definition of rules on supervision of the flow of financial and accounting documents, including review of the documents in terms of form, substance and accounting correctness;
6. Recording of economic events in an integrated finance and accounting system configured in compliance with the accounting policies in place at the Company, containing controls and checks ensuring data consistency and integrity, such as integrity checks, hardware checks, operating checks, and authority checks;
7. An IT system supporting the consolidation process, enabling the Group to streamline the consolidation process at the level of financial and management reporting, and speed up the preparation of consolidated reports;
8. Uniform rules and procedures for consolidating financial data, ensured through the use of unified reports, automatic validations of the consistency and completeness of reported data, as well as two-stage authentication and approval in the data consolidation system;
9. Formalised procedure for the preparation of financial statements (scheduled tasks with individual deadlines and persons responsible);
10. Multi-stage review and authorisation process for financial statements, involving the Supervisory Board;
11. Assessment of current reporting risk by the PGNiG Group's Internal Audit and Control Department and the Security Department;
12. Independent review of financial statements for reliability and accuracy by an independent external auditor;
13. Progressive development of the Group's internal procedures and regulations designed to ensure uniformity of the reporting processes and their continuous improvement.

At the centre of the accounting and financial reporting controls is a fully integrated financial and accounting system. The system checks recorded transactions for correctness, but also identifies which users have entered and approved individual transactions. Access to financial information is restricted by an authorisation system. Access authorisation is granted based on an employee's function and responsibilities, and is subject to stringent controls.

An additional level of control was introduced to oversee the Group's financial statements by assigning the preparation of the Issuer's financial statements and the Group's consolidated financial statements to two separate Departments at the Company's Head Office; the financial statements are entered in the integrated IT system with the accounts of other consolidated entities. Data undergoing consolidation is automatically checked for correctness by automatic validation systems and is subject to logical verification procedures carried out by dedicated Group employees.

The PGNiG Group's Accounting Policy ensures compliance of the Issuer's accountancy and financial statements with the relevant regulations, in particular with the International Financial Reporting Standards. The Accounting Policy is regularly updated to ensure its continuing compliance with amended regulations. The most recent update to the Accounting Policy was made in 2016.

To further mitigate the risks associated with financial reporting, financial statements are verified by an independent auditor every three months. The Issuer's auditor selection procedures ensure the auditor's independence in performing its duties (auditors are selected by the Supervisory Board) and high standards of auditing services.

Full-year financial statements are audited, whereas Q1, H1 and Q3 statements are reviewed. The results of both processes are presented by the auditor to the Management Board and to the Supervisory Board's Audit Committee.

In its operations, the Issuer manages its overall financial security using dedicated liquidity, financial risk, budget drafting and control management systems.

The financial reporting process is also reviewed on an ongoing basis through internal audit of individual processes and projects, which consists in reviewing accounting records for specific processes and one-off events in terms of their reliability and completeness, as well as in checking the correctness of the flow of accounting documents. Based on the findings and assessments formulated during operating audits in different areas of accounting, no need to develop a dedicated mechanism for reviewing the preparation process for financial statements has been identified. In particular, there are no reasons to believe that the absence of such a dedicated mechanism poses any threat to the Issuer's business. There is also no reason to believe that this situation is likely to significantly change in the near future. Annual reviews of the internal control and risk management system at the Company level show consistent implementation of recommendations intended to improve the financial reporting components of the system.

Factors mitigating the risks related to financial reporting include constant upgrading of particular modules of the integrated management system and improvement of the practical and specialist skills of employees operating the system.

4. Shareholders directly or indirectly holding significant holdings of shares, with an indication of the number of shares and percentage of the share capital held by such shareholders, and the number of votes and percentage of the total vote that such shares represent at the General Meeting

The Issuer's shares are listed on the Warsaw Stock Exchange, and its share capital is divided into 5,778,314,857 ordinary bearer shares with a par value of PLN 1.00 per share.

In 2016, the State Treasury, represented by the Minister of Energy (Plac Trzech Krzyży 3/5, 00-507 Warsaw), was the only shareholder with a significant holding of Issuer shares (more than 5% of the Issuer's share capital).

Issuer's shareholding structure as at December 31st 2016

	Number of shares	Ownership interest	Number of votes at the Issuer's General Meeting	Percentage of the total vote at the Issuer's General Meeting
State Treasury	4,153,706,157	71.88,%	4,153,706,157	71.88,%
Treasury shares	-	-	-	-
Other shareholders	1,624,608,700	28.12,%	1,624,608,700	28.12,%
Total	5,778,314,857	100.00,%	5,778,314,857	100.00%

The specification given above takes into consideration the EGM's Resolution No. 7/XI/2016 of November 24th 2016 to cancel 121,685,143 treasury shares. The cancellation of treasury shares was registered with the National Court Register on March 2nd 2017.

As at December 31st 2016, 728,293,842 PGNiG shares, representing 12.60% of the share capital and total voting rights at the General Meeting, were distributed among 59,256 of the 61,516 eligible employees.

5. Holders of any securities conferring special control rights, with a description of those rights

Pursuant to the Articles of Association, as long as the State Treasury holds Issuer shares, the State Treasury, represented by the minister competent for matters pertaining to energy, has the right to appoint and remove one member of the Supervisory Board.

Further, pursuant to the Articles of Association, the State Treasury (as a shareholder) approves in writing: (i) any changes to the material provisions of existing trade agreements for natural gas imports to Poland, as well as execution of such agreements, and (ii) the implementation of any strategic investment projects or the Company's involvement in investment projects which, permanently or temporarily, impair the economic efficiency of the Company's business activities, but which are necessary to ensure Poland's energy security.

Irrespective of the amount of the State Treasury's ownership interest in the Issuer's share capital, the State Treasury has the right to demand that the General Meeting be convened and that particular matters be placed on its agenda.

As a shareholder in PGNiG SA, the State Treasury also enjoys other rights under relevant laws and regulations.

6. Restrictions on voting rights, such as limitation of the voting rights of holders of a given percentage or number of votes, time limits on the exercising of voting rights, or provisions under which, with the company's cooperation, equity rights attaching to securities are separated from the holding of the securities

Since December 31st 2012, under PGNiG's Articles of Association, the voting rights of the Company's shareholders have been restricted so that no shareholder (except as specified below) can exercise at a General Meeting more than 10% of the total voting rights existing as at the date of the General Meeting, with the proviso that this restriction is deemed non-existent for the purposes of determining the obligations of buyers of significant holdings of shares.

The voting right restrictions do not apply to shareholders who, as at the date of the General Meeting's resolution imposing the restriction, are holders of shares conferring more than 10% of the total vote at the Company, and shareholders acting together with shareholders holding more than 10% of the total vote, pursuant to agreements concerning joint exercise of voting rights.

For the purposes of restricting the voting rights, the votes of shareholders bound by a parent-subsidary relationship are aggregated, and if the aggregated number of votes exceeds 10% of the total vote at the Company, it is subject to reduction.

7. Restrictions on the transfer of ownership rights to the Issuer's securities

There are no restrictions on the transfer of ownership rights to the Issuer's securities.

8. Rules governing the appointment and removal of management personnel and such personnel's powers, particularly the power to make decisions on the issuance or buy-back of shares

Pursuant to the Articles of Association, individual members of the Management Board or the entire Management Board are appointed and removed by the Supervisory Board. A member of the Management Board is appointed following a recruitment and selection procedure carried out pursuant to the Regulation of the Polish Council of Ministers of March 18th 2003 concerning recruitment procedures for members of management boards of certain commercial-law companies (Dz.U. No. 55, item 476, as amended). The procedure does not apply to Management Board members elected by employees.

As long as the State Treasury holds Issuer shares and the Issuer's annual average headcount exceeds 500, the Supervisory Board appoints to the Management Board one person elected by the employees, to serve for the Management Board's term of office. A person is considered a candidate to the Management Board elected by the employees if, during the election, 50% of valid votes plus one were cast in favour of that person, with the reservation that the election results are binding on the Supervisory Board if at least 50% of the Company's employees participated in the election.

Management Board members are appointed for a joint term of three years.

A member of the Management Board may resign from his or her position by delivering a notice to that effect to the Company, represented by another Management Board member or commercial proxy, with copies to the Chairman of the Supervisory Board and the minister competent for matters pertaining to energy. The resignation must be submitted in writing, or will otherwise be ineffective towards the Company.

The Management Board member elected by the employees may also be removed upon a written request submitted by at least 15% of the Company's employees. The Supervisory Board orders the voting and its results are binding on the Supervisory Board if at least 50% of the Issuer's employees participate in the ballot, and if the percentage of votes cast in favour of the removal is not lower than the majority required for the election of a member of the Management Board by the employees.

The powers of the Management Board are described in Section 11.1.2 hereof.

Pursuant to the Articles of Association, decisions on the issuance or buy-back of shares are adopted by the Issuer's General Meeting.

9. Rules governing amendments to the Issuer's Articles of Association

Pursuant to the Commercial Companies Code and the Issuer's Articles of Association, amendments to the Articles of Association are introduced by virtue of resolutions adopted by the General Meeting with the required majority of votes, and must be recorded in the business register. Any amendment to the Articles of Association must be submitted by the Management Board to the registry court within three months from the date on which the General Meeting adopted the resolution introducing the amendment.

The consolidated text of the Articles of Association is drawn up by the Management Board and then approved by the Supervisory Board.

10. The operation of the General Meeting, its basic powers and description of shareholders' rights, with the procedure for their exercise, in particular the rules stipulated in the Rules of Procedure for the General Meeting, to the extent not prescribed directly by law

10.1. Description of the operation of the General Meeting

The General Meeting operates in accordance with the provisions of the Commercial Companies Code, the Articles of Association and the Rules of Procedure for the General Meeting. The Rules of Procedure for the General Meeting stipulate, in particular, the rules of conducting meetings and adopting resolutions. The Rules of Procedure for the General Meeting are available on the Issuer's website at www.pgnig.pl.

The General Meeting may be convened as either Annual or Extraordinary, and is held at the Issuer's registered office. The General Meeting may only adopt resolutions on matters included in the detailed agenda, unless the entire share capital is represented at the General Meeting and no one present at the meeting objects to the adoption of a resolution which has not been included on the agenda. The agenda is proposed by the Management Board or by the party convening the General Meeting.

Pursuant to the provisions of the Commercial Companies Code, a shareholder or shareholders representing at least 5% of the share capital may request that certain matters be placed on the agenda of the forthcoming General Meeting. Moreover, the State Treasury, as a Company shareholder, is entitled to submit such a request, irrespective of the percentage of its ownership interest in the share capital. A General Meeting is convened by the Management Board, which in this respect acts:

1. On its own initiative;
2. At the request of a shareholder or shareholders representing at least 5% of the share capital, made in a written or electronic form;
3. At the request of the State Treasury as a Company shareholder, irrespective of the percentage of its ownership interest in the Company's share capital, made in a written or electronic form;
4. At the request of a Supervisory Board member appointed pursuant to Art. 36.1 of the Articles of Association (independent member), made in a written or electronic form,
5. at the written request of the Supervisory Board.

If the Management Board does not convene a General Meeting within two weeks from the date of receiving the relevant request, the registry court may authorise the shareholders to convene an Extraordinary General Meeting.

Shareholders representing at least 50% of the share capital or at least 50% of the total vote may convene an Extraordinary General Meeting.

The Supervisory Board may convene an Annual General Meeting if the Management Board fails to do so within the time limit specified in the Commercial Companies Code or the Articles of Association, or an Extraordinary General Meeting, if the Supervisory Board deems it advisable.

General Meetings are convened by publishing a notice on the Company's website and in any other form prescribed for the purposes of current disclosures under the Act on Public Offering, Conditions Governing the Introduction of Financial Instruments to Organised Trading, and Public Companies.

The notice should be published at least 26 days before the date of the General Meeting.

The Annual General Meeting is convened by the Management Board once a year, no later than within six months following the end of the financial year.

Votes at the General Meeting are cast in an open ballot. A secret ballot is ordered when voting on the election or removal from office of members of the Issuer's governing bodies or on appointment of its liquidator, on bringing members of the Issuer's governing bodies or its liquidator to account, and on personnel matters. Furthermore, a secret ballot is ordered if at least one shareholder present or represented at the General Meeting so demands.

The General Meeting adopts resolutions regardless of the number of shares represented at the meeting, unless the provisions of the Commercial Companies Code or the Articles of Association provide otherwise.

Any shareholder is entitled to object to a resolution of the General Meeting, and in accordance with the Rules of Procedure for the General Meeting, should be given an opportunity to concisely present the reasons for such objection. During the Company's General Meeting, each shareholder may submit draft resolutions concerning items on the agenda.

A General Meeting is opened by the Chairman of the Supervisory Board or the Deputy Chairman of the Supervisory Board, or in the event of their absence, by the President of the Management Board or a person appointed by the Management Board. The person opening the General Meeting should procure that the Chair of the Meeting is immediately elected and should refrain from any decisions on the substance of matters or on procedural issues. The Chair of the General Meeting is elected by secret ballot. The Chair's role is to ensure that the meeting proceeds smoothly and that the rights and interests of all the shareholders are respected. The Chair should not resign from their function without a sound reason, and may not unreasonably delay the signing of the minutes of the General Meeting.

Apart from the shareholders, the following persons are entitled to participate in the General Meeting:

1. Members of the Management Board and Supervisory Board, as well as candidates to the Supervisory Board (if the General Meeting is to deal with the appointment of a member or members of the Supervisory Board). The General Meeting may limit the right of Supervisory Board candidates to speak, to issues related directly to the candidacy;
2. Guests invited by the body convening the General Meeting, as well as experts, including auditors of financial statements and members of the Company's legal support staff, invited to present their opinions on and provide clarification of matters included on the agenda, with the proviso that their right to speak may be limited by the General Meeting to those items on the agenda about which they have been invited;
3. Notaries public drawing up the minutes of the General Meeting.

Short breaks in the meeting (technical breaks), which do not constitute adjournments, may be ordered by the Chair, provided that they are not aimed at hindering the exercise of the shareholders' rights.

10.2. Description of key powers of the General Meeting

The General Meeting is the Issuer's constituent body and has the power to adopt resolutions on the following matters:

1. Review and approval of the financial statements for the preceding financial year and the Directors' Report on the Issuer's operations;
2. Approval of performance of duties by members of the Issuer's governing bodies;
3. Distribution of profit or coverage of loss;
4. Determination of the dividend record date or a decision on payment of dividend in instalments;
5. Appointment and removal of Supervisory Board members;

27. Subscription, acquisition or disposal of shares in companies of the PGNiG Group which operate, pursuant to generally applicable laws, as a distribution system operator or storage system operator, including definition of the terms and procedures for the disposal;
28. Formation of a company, or acquisition of or subscription for shares in a company other than the company referred to in item 27 above, except if:
 - a) Made in exchange for the Company's claims as part of settlement or arrangement proceedings;

 - Production or generation of fuels or energy, or

 - b) Disposal of shares held by the Company if the holding does not exceed 10% of the share capital of a given company;

c) Disposal of shares acquired in exchange for the Company's claims as part of settlement or arrangement proceedings.

10.3. Shareholders' rights at General Meetings and their exercise

Shareholders have the right to participate in General Meetings and to exercise the voting rights attached to their shares.

Each shareholder of the Issuer has the right to participate in General Meetings, with one share conferring the right to one vote.

Only persons who have been the Issuer's shareholders for at least 16 days prior to the date of the General Meeting (the record date for participation in the General Meeting) are entitled to participate in the General Meeting. The record date for participation in the General Meeting is the same for the holders of rights under bearer shares and under registered shares.

Holders of rights under registered shares or provisional certificates as well as pledgees and usufructuaries holding voting rights are entitled to participate in the General Meeting, provided that they are entered in the share register on the record date for participation in the General Meeting.

Bearer shares in certificated form entitle their holders to participate in the General Meeting if the share certificates are submitted with the Company no later than on the record date for participation in the General Meeting and are not collected prior to the end of that day. In place of their shares, a shareholder may submit a document confirming that their shares have been deposited with a notary public, bank or investment firm having its registered office or a branch in the European Union, or in a state which is a party to the treaty on the European Economic Area, as indicated in the notice of the General Meeting. The document should specify the serial numbers of the share certificates and should state that the share certificates will not be released prior to the end of the record date for participation in the General Meeting.

The list of entities entitled to participate in the General Meeting as holders of rights under bearer shares is determined based on the shares submitted with the Company and on a list prepared by Krajowy Depozyt Papierów Wartościowych S.A. (Central Securities Depository of Poland), in accordance with the provisions of the Act on Trading in Financial Instruments.

Shareholders may participate in the General Meetings and exercise their voting rights in person, through a representative or through a proxy. Powers of proxy should be granted in a written or electronic form. A written or electronic document confirming the right to represent a shareholder at the General Meeting is deemed legally valid and needs no other confirmation, unless the Management Board or the Chair of the General Meeting has doubts, *prima facie*, about its authenticity or validity.

Shareholder(s) representing at least 5% of the Issuer's share capital, as well as the State Treasury (irrespective of the percentage of its ownership interest in the Issuer), may demand that the General Meeting be convened, provided that they submit the request in a written or electronic form. If the Management Board fails to convene a General Meeting at the request of the shareholder(s) within two weeks from the date the request was submitted, the registry court may, after demanding a relevant statement from the Management Board, authorise the shareholder(s) to convene the meeting. Additionally, shareholders representing at least 5% of the Issuer's share capital may request that certain matters be placed on the agenda of the forthcoming General Meeting. The same right is held by the State Treasury, irrespective of the percentage of its ownership interest in the Issuer. Any such request must be made in the Polish language and sent to the Issuer in a written or electronic form. The request should contain the grounds for, or draft resolutions of, the proposed agenda items, and should be submitted to the Management Board no later than 21 days before the scheduled date of the General Meeting. A shareholder or shareholders representing at least 5% of the Issuer's share capital may, before a General Meeting, submit to the Company, in a written or electronic form, draft resolutions on items which have been, or are to be, placed on the agenda of the General Meeting. Any item included on the agenda of the General Meeting may, at the request of the shareholder(s), be removed or abandoned only if a relevant resolution is passed by a majority of three quarters of votes and if all the shareholders that made the request and attend the meeting consent to such removal or abandonment.

The Company's Articles of Association do not provide for the possibility of participating in the General Meeting by means of electronic communication (including speaking at the General Meeting by means of electronic communication), or of exercising voting rights by postal ballot or by means of electronic communication.

At the request of shareholders representing at least 20% of the share capital, the Supervisory Board is elected by way of block voting. Shareholders at the General Meeting representing that portion of the shares resulting from division of the total number of represented shares by the number of Supervisory Board members, may form a block to elect one member of the Supervisory Board, but do not then participate in the elections of other members. Shareholders that belong to a block may exercise their voting rights exclusively within the block, which means that the shares held by them cannot be divided. The number of Supervisory Board members that may be elected within a block is determined by dividing the number of shares represented by the block by the minimum number of shares necessary to form a block. If a position on the Supervisory Board that should be filled by an appropriate block remains vacant, it is filled by the vote of all shareholders not participating in the block voting.

At the General Meeting, the Management Board is required to provide shareholders – at their request – with information on the Issuer, if such information is needed to assess an item on the Meeting's agenda. The Management Board may refuse to provide information if this could adversely affect the Issuer, its affiliate, or its subsidiary company or cooperative, especially through disclosure of any technical, trade or organisational secrets.

A Management Board member may refuse to provide information if this could lead to their criminal, civil or administrative liability.

In justified cases, the Management Board may provide information in writing within two weeks of being requested to do so at the General Meeting.

An answer is deemed to have been given if the relevant information is available on the Issuer's website in the section dedicated to shareholders' questions and answers to the questions.

Information on the Issuer may also be provided outside the General Meeting. Such information, along with indication of when and to whom it was provided, should be disclosed by the Management Board in writing in the materials to be presented at the next General Meeting. These materials need not include information which has been made publicly available, including by way of current reports issued pursuant to Par. 38.1.12 of the Regulation, or provided at the General Meeting.

A shareholder may require that a list of shareholders be sent to him/her free of charge by email, may inspect the book of minutes or demand to be given copies of the resolutions of the General Meetings certified as true copies by the Management Board.

Moreover, a shareholder may request to be provided with certified copies of proposals to the items included on the agenda one week before a General Meeting. Copies of the Directors' Report on the Company's operations and of the financial statements, along with copies of the Supervisory Board's report and the auditor's opinion, are provided to the shareholders at their request, not later than fifteen days before the Annual General Meeting.

At General Meetings, attending shareholders may propose procedural motions, including motions to change the sequence of items on the agenda, or to order a break. Each shareholder may also request that a matter be voted on by way of secret ballot.

The Issuer has its own website, where the following information is made available from the date of the convening of a General Meeting:

1. Notice of the General Meeting;
2. Information on the total number of Company shares and the number of votes attached to such shares as at the notice date, and on types of shares and the number of votes attached to the shares of each type (if such variety exists);
3. Documents to be presented to the General Meeting;
4. Draft resolutions or – if no resolutions are planned to be adopted – comments by the PGNiG Management or Supervisory Board on matters which have been placed on the agenda or are to be placed on the agenda prior to the General Meeting.

The Rules of Procedure for the Management Board are available on the Issuer's website at www.pgnig.pl, in the 'Corporate Governance' section.

The Management Board is composed of two to seven members. Management Board members are appointed for a joint term of three years. As long as the State Treasury holds Issuer shares and the Issuer's annual average headcount exceeds 500, the Supervisory Board appoints as a Management Board member one person elected by the employees, to serve for the Management Board's term of office.

The Management Board manages the affairs of the Issuer and represents the Issuer in and out of court. These documents should be submitted without the Management Board being called upon to do so, and with sufficient time for the Supervisory Board to assess them before they are presented to the General Meeting.

Declarations of intent may be made on behalf of the Issuer by two Management Board members acting jointly, or one Management Board member acting jointly with a commercial proxy. In those matters which do not require adoption of a Management Board resolution, each Management Board member attends to the responsibilities assigned to them on an individual basis. During Management Board meetings, each Management Board member has the duty to brief the other Management Board members on their material decisions and the results of their supervisory work, in particular with respect to the Issuer's business units, in accordance with the division of powers between the Management Board members.

Management Board meetings are held as needed. Each Management Board member may submit a request to the President of the Management Board (or acting President) to call a Management Board meeting in connection with matters requiring an urgent decision by the Management Board or for the purpose of presenting information on matters of significance to the Issuer. The Chairman of the Supervisory Board is also entitled to request that a Management Board meeting be called, by providing the President of the Management Board with a written agenda for the meeting. In addition, the Chairman of the Supervisory Board has the right to demand of the President of the Management Board that certain items be placed on the agenda of a Management Board meeting.

In accordance with the Articles of Association of PGNiG, in justified cases votes may be cast by written ballot or by means of remote communication, with the minutes of such voting to be approved at the next meeting of the Management Board.

The Supervisory Board defines the rules and amounts of remuneration for Management Board members, unless applicable mandatory provisions of law state otherwise.

Management Board meetings and resolutions

In 2016, the Management Board held 63 meetings and passed 733 resolutions, of which 8 were passed by circulation (outside of a meeting) under Art. 21.6 of PGNiG's Articles of Association and Section 4.10 of the Rules of Procedure for the PGNiG Management Board. A recess was ordered during 25 meetings of the Management Board.

In 2016, the General Meeting did not assign any tasks to be performed at the Company.

Recommendations issued in 2016 by the Minister of Energy included:

1. Selection by the Supervisory Board of a bid for audit of the Company's financial statements after carrying out a procedure ensuring unbiased and independent selection, based on the Ministry of Energy's criteria.

As the auditor of financial statements in 2016–2018 was selected by the Company's Supervisory Board in 2015, at present there is no need to carry out a procedure to select such entity.

2. Taking effective measures by the Company's Supervisory Board to ensure that, by the end of June 2017, members of the supervisory bodies of the Group companies have the same qualifications as are required of candidates for supervisory boards of state-owned companies.

The Supervisory Board, with the support of the Management Board, has taken the necessary steps to ensure that the qualifications of members of the supervisory bodies of the Group companies meet the requirements of the Minister of Energy's recommendations.

3. Ensuring by the Supervisory Board that rules governing remuneration for members of the Management Board and Supervisory Board are adopted at the Company in accordance with the Act on Rules of Remunerating Persons Who Manage Certain Companies, of June 9th 2016, and in accordance with the rules governing remuneration for members of the Management Boards and Supervisory Boards of companies in which rights attached to shares are exercised by the Minister of Energy, approved by the Minister of Energy on October 14th 2016.

On September 9th 2016, the General Meeting of PGNiG passed Resolution No. 9/VIII/2016 on rules governing remuneration for the PGNiG Supervisory Board members, and on November 24th 2016 it passed Resolution No. 9/XI/2016 on rules governing remuneration for the PGNiG Management Board members, thereby ensuring compliance of the rules governing remuneration for members of management and supervisory bodies with applicable laws and the Minister of Energy's guidelines.

4. Meeting by the Company of the Minister of Energy's expectations with respect to the manner of exercise of the owner's supervision at state-owned companies in which rights attached to shares are exercised by the Minister of Energy, in line with the standards of the owner's supervision at state-owned companies in which rights attached to shares are exercised by the Minister of Energy, approved by the Minister of Energy on October 14th 2016.

The Company, taking into account its status as a public company and role in Poland's energy security system, has taken the necessary steps to meet the Minister of Energy's expectations with respect to the manner of exercise of the owner's supervision at state-owned companies in which rights attached to shares are exercised by the Minister of Energy.

The Issuer's Supervisory Board is composed of five to nine members appointed by the General Meeting. Supervisory Board meetings are convened by the Chairman or Deputy Chairman of the Supervisory Board any time the Issuer's interest so requires, but no less frequently than once every two months. Supervisory Board meetings are also convened at the request of a Supervisory Board member, or at the request of the Management Board. The Supervisory Board expresses its opinions exclusively in the form of resolutions. The Supervisory Board may adopt resolutions if at least 50% of its members are present at a meeting, and all the members have been invited to participate. The Supervisory Board may only adopt resolutions on matters included on the agenda, which however can be amended if all members are present at a meeting and no member objects to the agenda being amended. The Supervisory Board adopts resolutions in an open vote by an absolute majority of votes. A secret ballot is ordered at the request of a Supervisory Board member or when the matter put to vote concerns personnel matters. Members of the Management Board may be invited to participate in Supervisory Board meetings. In order to be valid, a resolution of the Supervisory Board on appointment of an auditor requires a favourable vote from a member of the Supervisory Board who meets the independence criteria defined in the Issuer's Articles of Association. Except as specified in the Rules of Procedure for the Supervisory Board, the Supervisory Board may adopt resolutions by written ballot or by means of remote communication. Adoption of a resolution using any of these methods must be justified, and a draft resolution must be made available to all Supervisory Board members beforehand.

The Chairman of the Supervisory Board is entitled to request that a Management Board meeting be called, by providing the President of the Management Board with a written agenda for the meeting. The Chairman of the Supervisory Board may request the President of the Management Board that certain matters be included on the agenda of a Management Board meeting. The Management Board must submit the following documents to the Supervisory Board for assessment: financial statements for the preceding financial year, with the auditor's opinion; the Directors' Report on the Issuer's operations in the preceding financial year, and a proposal for distribution of profit or coverage of loss for that financial year. These documents should be submitted without the Management Board being called upon to do so, and with sufficient time for the Supervisory Board to assess them before they are presented to the General Meeting.

The Supervisory Board or its members delegated to perform certain supervisory functions independently are authorised to supervise all areas of the Issuer's business, and in particular to examine all of the Issuer's documents, demand that the Management Board and the Issuer's employees produce reports and explanations, or review the Issuer's assets.

The Supervisory Board may appoint standing or ad hoc committees (established as needed), to act as the Supervisory Board's collegiate advisory and opinion-forming bodies. The Supervisory Board also has the right to seek opinions from legal counsels and to engage experts in relevant fields to provide opinions on matters within the Supervisory Board's range of competence.

The amount of remuneration to be received by Supervisory Board members is set by the General Meeting, pursuant to the Act on Remuneration of Persons Managing Certain Legal Entities, dated March 3rd 2000 (Dz.U. No. 26, item 306, as amended).

For important reasons, the Supervisory Board may delegate individual members to perform certain supervisory functions independently for a specified term. A Supervisory Board member so delegated must submit written reports to the Supervisory Board on all actions taken.
